

# MICHAEL RODRIGUEZ

(786) 223-9508 | contact@rodriguezmichael.com | linkedin.com/in/michaelrod

Data Scientist and Technology Consultant with a Master’s in Information Systems and Operations Management (Data Science concentration). Expert at translating complex data into strategic business solutions. Extensive experience spanning the full data lifecycle: from managing IT infrastructure and cloud migrations to scaling production-level analytics for Fortune 500 clients. Skilled at driving data-backed operational efficiency.

## TECHNICAL SKILLS & CERTIFICATIONS

- Data Science & AI:** Python (PyTorch, NumPy, Pandas), R, Neural Network Architecture, RAG (Retrieval-Augmented Generation), Regression Analysis, Statistical Modeling.
- Data Engineering & Visualization:** SQL (MySQL, PostgreSQL), Tableau, Power BI, Data Pipelines, Migration Troubleshooting, Exploratory Data Analysis (EDA).
- Cloud & DevOps:** AWS (Certified Cloud Practitioner - 2024), Firebase, Docker, Ubuntu Server, Linux (Arch, Fedora), GitHub Actions (CI/CD).
- IT & Business Operations:** Active Directory, Salesforce, Technical Project Management, Vendor Relations, Stakeholder Management, Process Optimization.

## PROFESSIONAL EXPERIENCE

### Business Architecture Analyst (Technology Consultant)

- Accenture | New York, NY
- July 2024 – Present
- Architect data-driven solutions for Fortune 500 clients, focusing on large-scale data migration and operational reporting.
  - Debug and optimize data pipelines, ensuring high-fidelity data flow for enterprise-level business intelligence.
  - Develop sophisticated dashboards that provide executive leadership with actionable insights and real-time business performance tracking.
  - Consult with client stakeholders to bridge technical requirements with business architecture and process improvements.

### Senior Analyst

- Walmart | Hoboken, NJ
- Nov 2023 – July 2024
- Directed data analytics initiatives, framing complex business problems into actionable advanced analytics projects.
  - Engineered new features and automated workflows that significantly increased team efficiency in data processing.
  - Conducted deep-dive exploratory data analysis to identify trends, ensuring data integrity for high-stakes decision-making.
  - Collaborated with Product and Engineering teams to deploy scalable data solutions within the Walmart ecosystem.

### IT Manager & Infrastructure Lead

- MKRS Law | Coral Gables, FL
- May 2016 – Jul 2021
- Directed all IT operations across seven regional offices, supporting 90+ users and ensuring 99.9% system uptime.
  - Led 30+ major infrastructure projects, including full cloud migrations and security overhauls.
  - Modernized firm-wide workflows by implementing custom business system requirements and vendor management strategies.
  - Optimized IT procurement and operations, reducing turnaround time by 75% through strategic automation.

## EDUCATION

- MS, Information Systems & Operations Management (Data Science) | University of Florida
- May 2023
- BS, Information Technology | Florida State University
- Aug 2015

## PROJECTS & TECHNICAL INTERESTS

- Deep Learning:** Built a neural network in Python to process and classify MNIST handwritten digit datasets.
- Cloud Architecture:** Developed and deployed a personal portfolio (rodriguezmichael.com) using a CI/CD pipeline via GitHub Actions and Firebase Hosting.
- Home Automation & Server Management:** Architected a containerized home environment utilizing Ubuntu Server, Docker, and Home Assistant to automate complex IoT workflows.
